73177 – Cream (LFH) with 2 x 3-8mm Double Port Seals and 2 x 15mm Single Port Seals

Product Description

Emtelle have designed and constructed the EMU box to suit many requirements for FTTH and FTTP projects. It has been designed for bend insensitive fibre management and is versatile to give many different uses.

The EMU box is a compact multipurpose closure that can accommodate both patch connections and splices (Fusion and Mechanical).

The EMU boxes are also commonly used to breakout and distribute the fibres from Emtelle's Ø15mm RTRYVA solution.

Application

The IP68 rated closure can be stored within a customer boundary box or wall mounted and utilized as a network access point. The EMU box offers fibre storage management to house adequate fibre length for future connections.

Emtelle's Ø15mm RTRYVA products can be window cut and located within the closure where fibres can be spurred off for routing to the customer.

The multipurpose box can also be used as a connection, joint or repair closure.

Splice Configuration

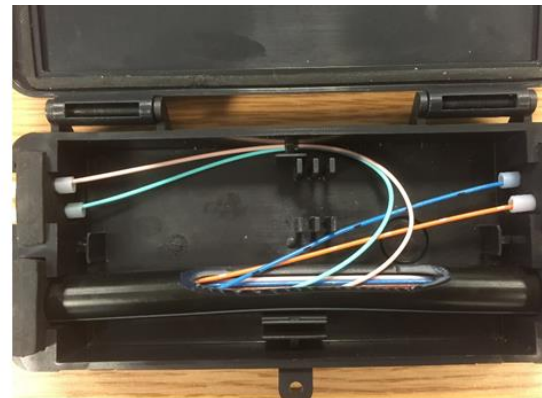

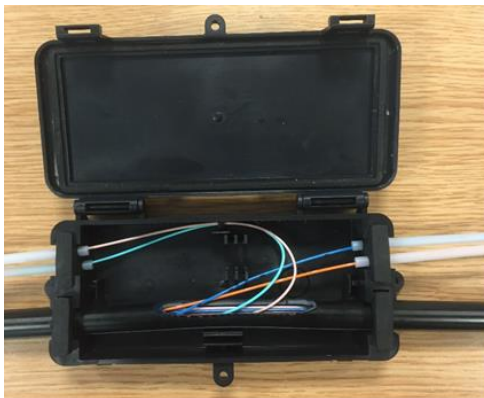

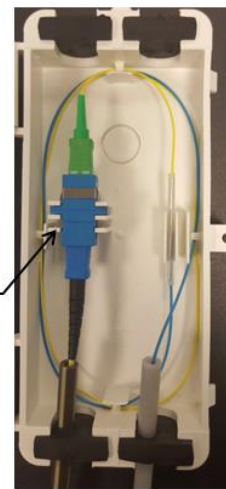

Knockout can be utilized for building entry

4 x Fusion splice holder

Dual Stacked adaptor holder for 2 x SC connectors or 4 x LC connectors

2 x Mechanical splice holder/ Splitter

Splice and patch Configuration

- Emtelle Ø15mm RTRYVA with 24x2fu
- 4 drops
- Drop-tube can be any size between 3-8mm
